GENERAL EXCHANGE TARIFF

Extended Access Line Service

Regulations

1. Residence or business service may be furnished an extended access line which may or may not be under the same roof of a residence or business but must be located within the same exchange area.
2. Mileage charges are computed on cable route measurement using one of the following alternatives: (1) from the location of the main service to the location of the extended access line location and (2) from the central office to the extended access line. Only one mileage charge will be charged between these locations for each line, regardless of the amount of equipment that is used inside this premise. The choice of routing will be the option of the Company based upon the availability of facilities.

If additional extended access lines are requested to different locations, the route mileage will be calculated the same as above for each extended access line.

3. Extended Access Line service is not furnished with pay telephone service. (CT)

Rates

Customer Owned Pay Telephone Service

ATRT

I. Customer Owned Pay Telephone Service

RT
AT
RT

A. General

1. Service Description

Customer Owned Pay Telephone Service is provided for use with customer owned pay telephones, and any publicly accessible telecommunications device. It is a telecommunications service obtained by means of any instrument, which, except for calls to public emergency telephone numbers, is activated only by the use of coins or alternative billing mechanisms and is accessible by members of the general public.

Customer Owned Pay Telephone Service is a two-way or, optionally, a one-way originating only, one-party business exchange access line composed of the serving central office line equipment and all outside plant facilities needed to connect the serving central office with the network interface at the customer premises. These facilities are Telephone Company provided and maintained and provide access to and from the telecommunications network for long distance service and local calling. Selective Class of Call Screening as defined below is provided on all Customer Owned Pay Telephone Access lines where facilities are available. The applicable nonrecurring charge is as specified under Rates and Charges herein.

- 2. For purposes of this tariff, the term "Customer" is defined as the party who is responsible for payment of the Customer Owned Pay Telephone Service Access Line.
- 3. Billed number screening is available at no charge. Billed number screening restricts certain incoming calls, such as collect calls placed over the Telephone Company's network, from being billed to the Customer Owned Pay Telephone.
- 4. 1+900 call restriction restricts calls to these pay-per-call information services to only those calls which are alternately billed.

5. Selective Class of Call Screening** is provided to alert operator service systems (live and mechanical) that a call is originating from a line which may require special handling and billing treatment. This service prevents calls from the line from being billed to the line. The service is implemented by sending two information digits with the Automatic Number Identification of the originating line.

No variation, alteration or refashion of the screening codes, billing restrictions, applicable access or other general provisions of this Selective Class of Call Screening Treatment will be permitted.

6. Customer owned pay telephones or any publicly accessible telecommunications device must be connected to a Customer Owned Pay Telephone Access Line, at rates specified in this tariff. A maximum of one customer owned pay telephone may be connected to a customer owned pay telephone access line.

7. In the case of one-way service, intercept treatment will be provided.

8. The Rules and Regulations applying to contracts in Section 2 of this Tariff is applicable to Customer Owned Pay Telephone Service.

9. Directory Listings are provided under the regulations governing the furnishing of listings for business subscribers as found in the Directory Listings section of this Tariff. Upon customer request, the telephone number will be omitted from the directory and directory assistance records at no additional charge.

10. All local calls and calls to Telephone Company numbers such as repair service, Directory Assistance Service, and public emergency service numbers such as 911 will be permitted from the Customer Owned Pay Telephone Access Line. This provision is not applicable to service accessible to inmates of correctional institutions.

11. Rates and charges for Company provided Directory Assistance Service as shown in paragraph E of this subsection I shall be applicable on a per call basis.

**This feature available where appropriate facilities exist.

A. General, (Cont'd)

- 12. In those serving offices where call screening is available, the Telephone Company will not bill any call, including, but not limited to, third number billed, collect, "0" or "0+" calls, to a number which has been clearly identified as a customer owned pay telephone to the Telephone Company operator at the time of the call attempt. However, the Telephone Company will not be responsible for refunds or adjustments of charges for calls placed through other than the Telephone Company operators. In those serving offices where call screening is not available, the Telephone Company will be held harmless from any fraud that occurs on the Customer Owned Pay Telephone Access Line.
- 13. The network interface for Customer Owned Pay Telephone Service will be installed as described in the Rules and Regulations section of this tariff. The location of the network interface must be accessible to the customer.**
- 14. When, at the customers' request, a Telephone Company-owned coin/coinless instrument is removed in order to install customer owned pay telephone, the Telephone Company will establish a network interface.
- 15. Where portions of an existing Telephone Company pay telephone such as the pedestal, shelves, enclosures, etc. are left in place and desired for purchase by the Customer Owned Pay Telephone Service customer, charges to purchase such items and abnormal construction costs will be quoted upon request.
- 16. Customer owned pay telephones may not be connected to customer provided equipment switching systems or shared lines/trunks.

B. Optional Features

Answer Supervision-Line Side provides "off-hook" supervisory signals to customer premises equipment. These signals originate from the called party's serving central office (terminating Office) to a line interface at the calling party's serving central office (originating Office). This provides the signaling necessary to allow billing to begin. This feature is not compatible with the Call Waiting, Speed Calling, and Three-Way Calling features. Answer Supervision is an optional service. This feature is available where appropriate Telephone Company facilities exist.

B. Optional Features, (Cont'd)

Coin Supervision - The Company will provide Coin Supervision Additive Service at the request of a payphone service provider (PSP). Coin Supervision Additive Service provides the capability of central office line equipment to pass signals and/or tones from a COPT's access line to a trunk terminating at the PSP's operator service provider. These signals enable an operator service provider to recognize coin deposits by the end user. Coin return is offered with this service, where technically feasible. Coin Supervision Additive Service also permits a suitably equipped operator service provider to automatically ring back the originating exchange line upon completion of a call. Coin Supervision Additive Service charge, as set forth in Section 17.4.4 (N), NECA FCC No. 5, is applied monthly for each COPT's access line for which Coin Supervision Additive Service is provided.

C. Responsibility of the Customer

1. The customer must provide the Telephone Company evidence of payphone service provider's authority to provide payphone service prior to the establishment of service.
2. Customer Owned Pay Telephone Service will not be provided until the applicant signs a service agreement to indemnify and hold the Telephone Company harmless from any and all loss, injury, damage and expense occasioned by or arising out of claims for injury to persons or damage to property caused by or contributed to by the provision of the Customer Owned Pay Telephone Service.
3. The customer is responsible for the installation, operation and maintenance of the customer owned pay telephone or any publicly accessible telecommunications device used in connection with this service.
4. The customer is responsible for the payment of charges for all calls originating from or accepted at the customer owned pay telephone. Names and/or addresses of those calls appearing on the customer owned pay telephone bill will not be investigated/provided due to the nature of the service being provided, i.e., for use of the public, transients, etc.

C. Responsibility of the Customer, (Cont'd)

- 5. The Customer shall be responsible for the payment of visits by a Telephone Company employee to the customer's service location(s) in connection with reports of service difficulty or trouble reports when the repair call is authorized by the Customer Owned Pay Telephone Service Provider as provided in the Company's tariffs.
- 6. The customer owned pay telephone or any publicly accessible telecommunications device must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind an FCC registered coupler and must conform to all FCC and all National Electrical code guidelines.
- 7. The customer must comply with the present and future Oklahoma Corporation Commission's rules and regulations.

D. Violation of Regulations

- 1. When a customer owned pay telephone is found to be in violation of a provision of this tariff, the Telephone Company will notify the customer of the violation in writing. Such notice will refer to the specific provision being violated. If the customer owned pay telephone access line is subject to suspension or disconnection as a result of the violation, the notice will so state. In this instance the notice will also state that, to avoid suspension or disconnection, the violation must be corrected and the Telephone Company must be notified, in writing, within twenty (20) days of receipt of such notice. Failure of the Customer to discontinue such use or to correct the violation may result in the suspension or disconnection of service until the customer complies with the provision as stated in this tariff.
- 2. Where any customer owned pay telephone is detrimental to the telecommunications network, the Telephone Company will promptly notify the customer of the violation and will take immediate action, including the disconnection of the service, as is necessary for the protection of the Telephone Company's facilities and employees.
- 3. Should a customer owned pay telephone be found to be in violation of the Oklahoma Corporation Commission's Pay Phone Rules or Telecommunications Rules, the Telephone Company will suspend or disconnect service upon order of the Commission.

Directory Listings

(AT)

Regulations

1. General Regulations

- a. The regulations for directory listings, as provided in this section, apply only to the information records and the alphabetical directory or that section of the directory containing the regular alphabetical list of names of customers.
- b. The alphabetical list of names of customers is designed solely for the purpose of informing calling parties of the telephone numbers of customers and those entitled to use customers' service. Special arrangement of names is not contemplated, nor any form of listing which does not facilitate directory service or is otherwise objectionable or unnecessary for purposes of identification.
- c. Names in directory listings shall be limited to the following:
 - (1) In connection with residence service:
 - The individual name of the customer, or
 - The individual name of a member of the customer's family.
 - (2) In Connection with business service:
 - The individual name of the customer, or
 - The name under which the customer is actually doing business as evidenced by signs on the premises, by letterheads, and by name under which a bank account is carried, or

2. Extra Listings

- a. Business extra listings may be the names of partners or members of the firm, if the customer is a partnership or firm; the names of officers of the corporation, if the customer is a corporation; and for any business establishment, the names of associates or employees of the customer. No other class of listing, such as service, agency, commodity, etc., will be accepted.
- b. Residence extra listings may be the names of members of the customer's immediate family or of other parties actually residing in the residence.
- c. Ordinarily, all extra listings must be of the same address and telephone number as the primary listing, except as provided below for alternate listings. However, when in the opinion of the Company it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing may be permitted under the address of an access line installed on premises of the customer, but at an address different from that of the main service, using the telephone number of the primary listing.
- d. Extra listings are furnished at the rate quoted in this Tariff.
- e. Extra listing charges (including alternate call listings) date from the time the listing is posted on the information records. Information records are posted at the time application for the listing is made, or at the date of issue of the directory, as the customer may desire.

3. Special Types of Extra Listings

a. Duplicate and Cross Reference Listings

- (1) Duplicate listings, i.e., listings of nicknames, abbreviated names, names which are commonly spelled in more than one way, and rearrangements of names, are permitted when, in the opinion of the Company, they are necessary for the proper identification of the customer, and are not desired to secure a preferential position in the directory or for advertising purposes.
- (2) Cross reference listings are permitted when their use will facilitate in the handling of telephone calls.
- (3) The extra listing rate applies for each duplicate or cross reference listing.

b. Alternate Call Number Listings

- (1) Listing of an alternate telephone number, other than those covered under paragraph 5 "Additional Lines of Information" of this tariff, to be called in case no answer is received, is permitted for customers to all classes of service.
- (2) The alternate number may be that of a service not under contract with the customer in connection with whose name it appears. In such a case, the consent of the customer to the alternately listed service must be obtained before the alternate listing is furnished.
- (3) The extra listing rate applies for each alternate call number listing.

Directory Assistance

Regulations

1. The Telephone Company furnishes Directory Assistance whereby customers may request assistance in determining directory information within the Telephone Company's exchanges or in the same Long Distance Numbering Plan Area.
2. A customer request for directory assistance is a call to directory assistance attendant.
3. Customers receive no monthly call allowance to a directory assistance attendant, including customers with Centrex service and Centrex Dormitory Service served by switching equipment located on the Telephone Company premises. There are no allowances for Directory Assistance calls from Customer-Owned Pay Telephone Service or Company-owned pay telephones.
4. A maximum of two (2) telephone numbers may be requested per call to a directory assistance attendant.
5. Charges for Directory Assistance Services are applicable to calls from customers whose physical, visual, mental or reading disabilities prevent them from using the telephone directory. The method of exempting those disabled customers shall be via the completion of an exemption form supplied by the Telephone Company and the Telephone Company's acceptance of that form. The exemption for disabled customers includes sent paid calls from the customer's local exchange service and calls billed to the customer's telephone company credit card. Third-number billing of Directory Assistance calls to the disabled customer's local exchange service are not exempt.
6. Charges for Directory Assistance Service are not applicable to calls placed from a hospital which has its principle undertaking the in-patient medical or surgical care of sick or disabled persons.

Directory Assistance Call Completion

1. General
 - a. Where facilities permit, Directory Assistance Call Completion (DACC) is a service that gives customers the option of having their local calls automatically completed when they request a telephone listing from the Directory Assistance operator. The call may be completed automatically or by the Directory Assistance operator.
 - b. The DACC portion of the call may either be billed in the same manner as the Directory Assistance portion of the call, or alternately billed by using a telecommunications company calling card, billing to a third number, or collect.
 - c. Business customers may obtain, at no charge, a screening feature that provides DACC only on an alternately-billed basis from the customer's telephone.

Directory Assistance Call Completion Cont'd

2. Description of Service
 - a. Fully-Automated DACC
The customer receives the requested directory number from an automated voice system. The customer accepts DACC by depressing "1" from a Touch-tone telephone when prompted by the DACC announcement.
 - b. Semi-Automated DACC
The customer receives the requested directory number and requests the operator to complete the call to the requested number.
 - c. Person-to-Person DACC
The customer receives the requested directory number and requests the operator to complete the call to a specified person.
3. Call Allowance
There is no DACC call allowance, however, the Directory Assistance portion of the call is still governed by the appropriate call allowance as stated in Regulations Paragraph 3.
4. Exemptions
For local calls, DACC charges do not apply to calls placed by those customers whose physical, visual, mental or reading handicaps prevent them from using the telephone directory as defined in Regulations Paragraph 5.

National Directory Assistance (NDA)

1. General

a. The regulations and rates set forth below apply to all calls from customers who request assistance in determining telephone number information of nationwide telephone subscribers who are located outside of their Home Numbering Plan Area (HNPA) or, alternatively, their LATA if the LATA has two or more HNPA's.

b. The customer will be charged for each listing request made during the call. The National DA rate applies per listing request whether or not a number is provided, including requests for numbers that are non-published, non-listed, or not found. There are no allowances associated with National DA requests. Customers desiring more than one listing per call should inform the operator at the beginning of the call.

c. There are no exemptions from billing for requests for National DA service.

d. Where facilities permit, National DA Listings will be available from Hotel/Motel and Pay Telephones.

2. Description of Service

National Directory Assistance Service (NDA) is a service whereby customers may request assistance in determining telephone-listing information for areas outside of their local calling scope (LATA).

Requests for listings that are within the customer's local calling area or within the customer's HNPA are billed under the Directory Assistance charges as described in the Directory Assistance Service section of the General Exchange Tariff.

Business Category Search (BCS)

1. General

- a. The regulations and rates set forth below apply to all calls from customers who request assistance in determining telephone number information of a business as defined below, when a caller does not know, or does not provide, the name of the business. Business Category Search (BCS) can be performed for local and non-local businesses nationwide.
- b. The customer can obtain up to ten business telephone numbers on a call. The customer will be charged for each business telephone number provided. If none of the suggested business names satisfy the customer's request, the customer will be charged a single charge for each requested search, at the applicable rate listed below. The BCS rate applies whether or not a number is available, including requests for numbers, which are non-published, non-listed, or not found.
- c. There are no handicapped billing exemptions or call allowances for BCS service requests.
- d. BCS is not currently available from Hotel/Motel and Pay Telephones.
- e. With respect to any claim or suit, by a customer or others, the Company shall not be liable for providing the name and number of a business to a customer using BCS, for any errors or omissions, for the method of providing listings, or for any other aspect of this service. The Company's liability, if any, for its gross negligence or willful misconduct shall not be limited by this tariff.

Business Category Search (BCS) cont'd

2. Description of Service

Business Category Search (BCS) will provide customers with the ability to request business listings, by city, address, intersection, or business location, for a specified category of business, when they do not know the name of the business they are seeking. This service is available to business and residence customers.

Callers can access BCS by dialing 1+411.

Method of Provisioning – The Company searches and retrieves listings randomly, on a geographic basis for city, and/or by using information such as an address, street intersection, or a specific business location. The Company will suggest three business names to the customer, unless fewer business names are available, in which case only those business listings retrieved will be suggested. If the suggested business names do not satisfy the customer, additional searches can be requested. The Company’s operators will provide the business address(es) if requested by the customer.

The Company will make good faith efforts to eliminate a business customer’s listing from its service upon written notice. However, it is not possible to ensure that a business listing will be permanently removed from this service unless the business customer subscribes to non-published service.

3. Rates

	<u>Charge Per Listing (1)</u>	
	<u>Residence</u>	<u>Business</u>
Sent Paid Call	\$1.99	\$1.99
Alternately Billed Call	\$2.25	\$2.25

(1) The customer can obtain up to ten business telephone numbers on a call. The customer will be charged for each business telephone number provided. If none of the suggested business names satisfy the customer’s request, the customer will be charged a single charge for each requested search, at the applicable rate listed below. The BCS rate applies whether or not a number is available, including requests for numbers, which are non-published, non-listed, or not found.

Construction Charges

(CT)

Regulations

1. General

- a. Special charges in the form of installation charges and/or construction charges, monthly charges, or both, may be applied in addition to the usual service connection charges and monthly rates when, because of the sporadic or occasional nature of the service or an unusual investment or expense arises, as for example:
- (1) The proposed service is of a temporary nature or the facilities are provided in remote or undeveloped sections and would not be useful to the Company in the general conduct of its business after that service is disconnected.
 - (2) Conditions require or the customer requests the provision of special equipment or unusual or nonstandard methods of plant construction, installation or maintenance or a move of Company facilities.
 - (3) The customer's location requires the use of costly private right-of-way.
- b. Title to all construction provided wholly or partly at a customer's expense is vested in the Company.
- c. Where required by the conditions, applicants shall provide, without expense to the Company, private right-of-way.
- d. Applicants may be required to make advance payments to cover all or a portion of the exchange service when in the opinion of the Company there is evidence of credit risk.
- e. Under normal conditions, the Company, without charge, will extend its lines to reach applicants within the exchange service area up to a distance of one-half mile except as specified in 7.d.(1) following.

GENERAL EXCHANGE TARIFF

Construction Charges Cont'd

(CT)

Regulations, Cont'd

2. Temporary Service

In those instances where only a temporary service is required, for example oil rigs, construction sites, etc., the customer must furnish the cable, lay it out on the ground and maintain it to the closest available cable pair, all at their expense.

3. Specialty Services

When construction is required to provide service to a "specialty" type of service where it is unlikely any use for Company's services will be required at the disconnection of the specific customer, the full amount of the construction charges must be paid by the customer in advance. Some examples of these specialty services would be answering services, computer services, control circuits, radio towers, etc.

4. Construction to Trailer Houses

A charge will be made to cover the cost of construction of line to any trailer house not fixed on a permanent type foundation. The only time this charge will not be made is when a drop wire can be run without the construction crew being involved. As an alternative to the payment of the construction charge, the customer may execute a Communications Facilities Agreement as provided in paragraph 7. following.

5. Poles or Buried Cable on Private Property

- a. Poles or buried cable on private property to be used in serving an individual customer will be furnished by the Company at no charge to the customer up to one-half mile. Ownership and maintenance of such poles or buried cable is vested in the Company.

5. Poles or Buried Cable on Private Property, Cont'd

- b. Poles or buried cable on private property to be used as a part of the standard distribution plan serving customers in general are furnished, maintained and owned by the Company, subject to such construction charge as may be applicable.
- c. Circuits on poles on private property are furnished, owned and maintained by the Company.

6. Pre-Construction Agreement

To facilitate construction when required at customer's expense, a Pre-Construction Agreement will be executed by the customer indicating which of the three optional payment methods is desired.

Option 1 - pay within sixty (60) days the full construction charge.

Option 2 - execute within sixty (60) days a Communications Facilities Agreement.

Option 3 - undertake at personal expense the burying of the line and notify Company when completed, provided that it must be completed within sixty (60) days.

7. Communications Facilities Agreement

- a. One option offered to customers for the payment of construction charges is the signing of a Communications Facilities Agreement. This Agreement provides that the customer will maintain service at this location for a set period of time. During this period of time the basic cost of local service paid by the customer is considered as an offset against the construction charges.

7. Communications Facilities Agreement, Cont'd

- b. Under this Agreement the only time that the customer actually pays the construction charges is if service is disconnected prior to expiration of the term of the Agreement. In that event charges for the remaining term become due and payable.
- c. The only conditions under which a customer may be relieved of responsibility for the remaining term charges is if another customer immediately moves into the same premises. In that event the continuation of service to that premises acts as a continuation of payment under the Agreement.
- d. (1) Three Year Term. Agreements for a term of three years are required for all second lines. They are also used for construction to non-permanent structures such as trailer houses, buildings on skids, etc., for distances of less than one-half mile.
(2) Five Year Term. Agreements for a term of five years are required for construction for distances of one-half to one mile for all structures whether permanent or not.
(3) Seven Year Term. Agreements for a term of seven years are required for construction for distances of one to one and one-half miles for all structures whether permanent or not.
(4) Ten Year Term. Agreements for a term of ten years are required for construction for distances over one and one-half miles for all structures whether permanent or not.
- e. Company may, at it's own option, elect to furnish this service by carrier rather than physical facilities. In this event customers shall sign an agreement covering an annual charge based on initial installation charges.
- f. In all instances Company shall have sole discretion for determining the best available route to the customer's premises.(CT)

8. Special Type of Construction

When underground service connections are desired by customers as initial installations in places where aerial drop wires would ordinarily be used to reach the customers premises, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

- a. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition the customer shall pay the cost of the underground cable - including the cost of installing. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Company.

The duct or ducts required in the underground conduit by the Company to furnish service shall be reserved for its exclusive use.

Where armored cable is laid in a trench, the trench shall be constructed and back filled by or at the expense of the customer. In addition, the customer shall pay the cost of the cable - including the cost of installing it.

Cable installed in conduit will be maintained and replaced at the expense of the Company where the conduit has been inspected in place by the Company and approved, but repairs or replacements of cable in conduit not so inspected and approved, or repairs or replacements of cable in conduit or trench made necessary by damages caused by the customer or his representative will be made only at the customers expense.

- b. Where cable is direct buried, the customer is required to provide the trench and back filling at their own expense. The Company will provide the buried cable.

Foreign Exchange Service

(AT)

Regulations

1. Foreign Exchange Service is exchange service furnished to a customer from an exchange other than the one in which he is located.
2. Such services are not in accord with the general plan of furnishing telephone service and they will be furnished only under special conditions where the service is warranted by the circumstances involved. The Company does not obligate itself to furnish the services particularly when it involves undue expense or impairment of the service furnished the general public. Where special construction must be provided for this type service, the expense will be paid by the customer as negotiated before construction begins and service is established.
3. Foreign Exchange Service is offered for the exclusive use of the customer and does not authorize the use of such facilities by the customer or others for toll service to points beyond the foreign exchange; and it shall be the responsibility of the customer to police the use of the facilities so that other persons shall not use them in order to avoid the payment of toll. In the event the customer fails to comply with these requirements and/or does not sufficiently police the use thereof, the service will be discontinued.
4. Foreign Exchange Service is provided in accordance with such methods as are best suited to meet plant and operating requirements of the Company.
5. Where the normal and foreign exchanges are not contiguous, a customer to Foreign Exchange Service is required to subscribe also for some class of exchange service regularly furnished in the exchange in which the customer's premises is located.
6. The associated local exchange access rate and nonrecurring rates for installation of service are set forth in the Local Exchange tariff.

Custom Local Area Signaling Services (CLASS)

III. Custom Local Area Signaling Services (CLASS)

A. Regulations

1. Custom Local Area Signaling Services (CLASS) features permit a customer to manage incoming and outgoing calls to their residence or business local exchange access line more effectively. For incoming calls, CLASS functions only when the central office that serves the originating call as well as the customer's serving central office are both equipped for the service. For outgoing calls, CLASS functions only when the customer's serving central office as well as the central office that serves the called number are both equipped for the service.
2. CLASS features apply to single line residence and business service, excluding pay telephone service. CLASS features are only offered where technical facilities are available.
3. A monthly recurring rate applies to all CLASS features with the exception of Per Call Blocking, Call Trace, Repeat Dialing and Call Return. Call Trace is billed at an individual charge when the feature is successfully invoked. Repeat Dialing and Call Return are billed on a usage basis up to a maximum charge per month. Per Call Blocking is available at no charge to the customer.
4. A customer that subscribes to Caller ID is required to provide a display device, located at the customer's premises, to which the calling party's directory name and/or number is delivered. The display device is considered customer premises equipment (CPE); therefore, the installation, repair, and technical capability of that CPE to function in conjunction with Caller ID service is the responsibility of the customer. The Company assumes no liability and will be held harmless if the customer's CPE is incompatible with the Company's equipment and fails to conform satisfactorily with Caller ID service.
5. When a customer subscribes to more than one CLASS and/or a combination of CLASS and Custom Calling features, a discount will apply to each additional feature. Certain exceptions apply as set forth in C. following.

Custom Local Area Signaling Services (CLASS)

III. Custom Local Area Signaling Services (CLASS), (Cont'd)

B. Service Descriptions

1. Call Block

Permits the customer to block an incoming call and/or calls from a maximum of ten (10) specified telephone numbers and functions as a screening service for the customer. A customer may create, by dialing an activation code, the list of telephone numbers. In addition, if a customer receives an unwanted call from an unknown telephone number, the customer may block future calls from that unknown number by immediately dialing the Call Block activation code after the unwanted call is terminated.

The Company's equipment will review all incoming calls and block those from numbers that appear on the customer's list. Blocked telephone numbers are directed to a Company recorded announcement.

Standard call completion will occur if a call originates from a central office that is not equipped for CLASS functions.

2. Call Return

Permits the customer to automatically redial the telephone number of the most recently completed incoming local call or call attempt by dialing an activation code. If the redialed number is busy, the Company's equipment will monitor the redialed number every forty-five (45) seconds for a maximum of thirty (30) minutes in an attempt to establish the call. When both lines are idle, the customer is notified by a distinctive ring, and when the customer picks up the receiver, the call is automatically placed.

This feature is billed on a per activation basis when the customer invokes the unique code (*69) necessary to activate the feature. Call Return cannot operate when a call originates from a central office that is not equipped for CLASS functions. In addition, this feature will not operate when the calling party's (redialed) number has been Call Forwarded.

B. Service Descriptions, (Cont'd)

3. Priority Call

Permits the customer to preselect a maximum of ten (10) telephone numbers that can be given a distinctive alerting signal, ring or Call Waiting tone for priority calls. A customer creates, by dialing an activation code, the list of telephone numbers. The Company's equipment will screen incoming calls and provide the appropriate signal, ring or tone for those numbers that appear on the customer's list.

Calls from telephone numbers not included on the screening list will produce a normal ring. A normal ring will also occur if a call originates from a central office that is not equipped for CLASS functions.

A customer may subscribe to both Priority Call and Call Waiting features. A distinctive Call Waiting tone is provided with the Priority Call feature.

Some customer premises equipment may not be able to produce a distinctive signal, ring or tone. The Company accepts no liability for customer premises equipment that is not compatible with Priority Call service.

4. Repeat Dialing

Permits the customer to automatically redial the last outgoing telephone number dialed. If the redialed number is busy, the customer may dial an activation code, and the Company's equipment will monitor the redialed number every forty-five (45) seconds for a maximum of thirty (30) minutes in an attempt to establish the call. When both lines are idle, the customer is notified by a distinctive ring, and when the customer picks up the receiver, the call is automatically placed.

This feature is billed on a per activation basis when the customer invokes the unique code (*66) necessary to activate the feature. The Repeat Dialing feature will not operate to monitor and place a call to a telephone number served by a central office that is not equipped for CLASS functions.

6. Caller ID

Enables the customer to receive the calling party's directory number on incoming calls from telephone numbers within the local calling scope, within the scope of the Expanded Calling Area, or on the Long Distance Telecommunications Network (where facilities permit).

a. Displayed Directory Number Restrictions - Displayed directory numbers are restricted as follows: CT

(1) Directory numbers will not be provided if the call originates from a central office that is not equipped for CLASS functions and is not linked by appropriate facilities to the customer's serving central office. CT

(2) Since the calling party's directory number is displayed during the first silent ringing interval, directory numbers will not be displayed if the called party answers the call during the first ring interval. In addition, Caller ID cannot be provided in conjunction with distinctive ringing service if the customer's telephone set does not allow a sufficient amount of time during the first silent ringing interval to display the calling party's directory number. CT

(3) Directory numbers are not displayed for operator assisted calls. Operator assisted and calls from central offices not equipped to forward the calling party's directory name and number will result in an "out of area" indication to the customer's display unit. CT

(4) Directory numbers may not be delivered to a customer's display unit for calls originated from pay telephones. CT MT

6. Caller ID, (Cont'd)

a. Displayed Directory Number Restrictions, (Cont'd)

(5) The main PBX number is delivered to a customer's display CT
unit when the incoming call is made from a station served CT
by a PBX. The main number of a multi-line hunt group is CT
delivered to a customer's display unit when the incoming
call originates from any station within the group.

6) Directory numbers will not be provided when the calling CT
party has activated per call blocking, or the calling party's
telephone line has per line blocking, as described below.

b. Blocking Options - Two Caller ID options, Per Call Blocking or
Per Line Blocking, are available to all customers.

(1) Per Call Blocking

- i. Per Call Blocking is available at no charge to the customer.
- ii. Customers who utilize free Per Call Blocking must enter the specific code (*67) to block transmittal of their telephone number before each outgoing call. CT
The customer assumes all responsibility for activating Per Call Blocking to prevent the display of their name and number for that outgoing call.
- iii. If a customer (calling party) activates blocking, by dialing the access code (*67) immediately prior to placing a call, the directory number will not be CT
transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. Directory numbers suppressed by the calling party CT
result in a "private" indication to the customer's display unit.

7. Anonymous Call Rejection

MT

Allows customers to automatically reject all calls that have been marked anonymous (see paragraphs 6.b., preceding) by the calling party. When Anonymous Call Rejection (ACR) is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

8. Call Trace

Permits the customer to initiate an attempted trace of the last completed incoming call immediately after the call is terminated. Call Trace is billed per successful trace invoked by the customer.

If a trace is successful, the Company's equipment will record the incoming call detail. Call detail does not include recording of the telephone conversation. The Company will not provide any call detail which results from a trace to the customer subscribing to Call Trace. The Company will provide the call detail of a successful trace only to appropriate law enforcement authorities when the Company receives a proper request.

If a customer wishes that further action be taken regarding a successful trace, the customer is responsible to initiate contact with the appropriate law enforcement agencies who, in turn, should contact the Company's business office during normal business hours to obtain the specific records for that customer. Call trace records will be retained by the Company for a maximum of thirty (30) days.

NII SERVICES**1. General**

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another preprogrammed telephone number (point-to-number) determined by the N11 Subscriber.

2. Definitions

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711, and 811 to the following special services.

"211" (Not Available)

211 is assigned for public access services that provide free information and referral to community resources in situations that are not immediately life-endangering.

"311" (Not Available)

311 is assigned for non-emergency police and other governmental information.

"511" (Not Available)

511 is assigned for traffic and transportation information.

"711" (Not Available)

711 is assigned for access to Telecommunications Relay Service (TRS).

"811 "

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

3. Conditions and Limitations

A. Abbreviated Dialing Service is available from Company in Company territory only. Governmental and other legally authorized entities ("Subscribers") wishing to provide access to Abbreviated Dialing Service to end users in another company's territory must make appropriate arrangements with the other company.

B. Company shall have no responsibility with respect to the information, service, communications, announcements, advertising, promotion, performance, behavior, action, or inaction of the Subscriber providing access to Abbreviated Dialing Service or to end users calling via Abbreviated Dialing Service.

C. For the Subscriber's purpose in providing access to Abbreviated Dialing Service, Company's Local Calling Area is the Basic Local Calling Area as defined in this Tariff, as facilities permit. Additionally, pre-recorded announcements provided by

GENERAL EXCHANGE TARIFF

NII SERVICES**3. Conditions and Limitations (Continued)**

- Subscribers will be allowed as Company facilities permit and will be at Subscribers' expense.
- D. Abbreviated Dialing Service can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.)
- E. Limitations and use of service as stated in this Tariff apply to Abbreviated Dialing Service.
- F. Company may provide Directory Listings for Abbreviated Dialing Service at rates and pursuant to the regulations found in Section 7 of this Tariff.
- G. Access to Abbreviated Dialing Service is not available to the following types of service:
Payphone Service Provider Telephones (PSPs)
Hotel/Motel/Hospital Service
1+
0+, 0- (Credit Card, Third-Party Billing, Collect Calls) Inmate Service
101XXXX Wireless - Type
- H. Subscribers will not receive calling number information through Abbreviated Dialing Service. To receive calling number information, the Subscriber must subscribe to one of Company's Caller ID services set forth in this Tariff.
- I. When a N11 number is disconnected, Company will route the calls to an intercept announcement for a maximum of 60 days, provided that the Subscriber is also an end user customer of Company. The announcement provided may refer the caller to another telephone number.
- J. When Abbreviated Dialing Service is provisioned by Company, Company will bill the Subscriber the nonrecurring service charge. Company will not refund or waive the nonrecurring charge if the Subscriber cancels or withdraws its request for service after Company has programmed the central office per the Subscriber's request.
- K. Upon sixty days written notice Company may terminate this Agreement and the services provided herein in accordance with the terms and conditions contained in CC Docket 92105 and any subsequent rules which may be identified by the FCC in CC Docket 92-105 regarding the use and return of such N11 codes. In the event of such termination, Company will at Subscriber's request, transfer the service arrangements to a 7- or 10-digit dialing arrangement within the six-month notice period.

GENERAL EXCHANGE TARIFF

NII SERVICES**3. Conditions and Limitations (Continued)**

Subscribers will be required to migrate to any standard access arrangement subsequently agreed to by the industry and approved by the FCC, and Company will charge Subscribers the appropriate tariff rates for the establishment of new access arrangements.

- L. Only one 7- or 10-digit local number or one 10-digit toll-free number may be used as the lead number per Basic Local Calling Area. All central offices within a Basic Local Calling Area must be pointed to the same 7- or 10-digit local number or one 10-digit toll-free number.
- M. Abbreviated Dialing Service is provided where Company facilities permit.
- N. To ascertain whether Type 1 wireless customers will be able to reach Subscriber by dialing NII, Subscriber must contact separately the applicable wireless companies.
- O. To ascertain whether a Subscriber's callers who are end users of a CLEC will be able to reach Subscriber by dialing N11, Subscriber must contact separately the applicable CLEC(s).
- P. Company will provide Abbreviated Dialing Service under the following conditions:
1. For network sizing and protection, Subscriber will provide to Company an estimate of annual call volumes and the expected busy hour and holding time for each call to N11.
 2. Subscriber will purchase or otherwise provide adequate telephone facilities initially and subsequently as may be required to handle adequately calls to Subscriber, in Company's judgment, without impairing Company's general telephone service or telephone plant.
 3. Subscriber will obtain all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks and patents used in connection with Abbreviated Dialing Service.
- Q. Company shall not under any circumstances be responsible or liable for incidental, consequential or special damages, notwithstanding the foresee ability or disclosure of said damages, including but not limited to damages associated with delay, loss of data, profits or goodwill.

GENERAL EXCHANGE TARIFF

NII SERVICES**3. Conditions and Limitations (Continued)**

- R. Company provides no warranties, express or implied, including but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Without limiting the foregoing, Company makes no warranty with respect to the performance of any telecommunications and non-telecommunications system, operating system or any application software.
- S. Vacation Service is not applicable for N11 Abbreviated Dialing Service.
- T. Subscriber shall respond promptly to any and all complaints to any regulatory authority against any service provided via the N11 number. If requested by Company, Subscriber shall assist Company in responding to complaints made to Company concerning the Subscriber's N11 service.
- U. Company will notify Subscriber when Subscriber's service unreasonably interferes with or impairs other services provided by Company to other end users. If, after receipt of notice, Subscriber makes no modification in method of operation, or in the service arrangements that are deemed service-protective by Company, or if Subscriber is unwilling to accept the modifications, or if Subscriber continues to cause service impairment, Company reserves the right, at any time without further notice, to institute protective measures, up to and including termination of service. In an emergency situation as defined by Company, Company reserves the right, at any time, without notice, to institute protective measures up to and including termination of service.
- V. In no event shall Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission or failure of performance by Company, or its employees, or agents, in connection with Abbreviated Dialing Service. Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment owned or leased by Subscriber.

4. Application of Rates

- A. Basic local exchange service is required, in addition to N11 Service and in order for N11 Service to function properly. N11 Service is supplemental to and is not a replacement for local exchange service.
- B. N11 Subscriber shall pay a nonrecurring Central Office Charge for each Company host central office out of which N11 is established:
1. Some Company local exchanges are served by more than one host central office. In order to establish N11 in such an exchange, a N11 Subscriber shall pay a

4. Application of Rates

Central Office Charge for each Company host central office in the N11 Subscriber's service area.

2. Some host central offices serve more than one Company local exchange. If a N11 Subscriber applies to establish N11 Service in multiple Company local exchanges served by the same host central office, then only one Central Office Charge shall apply. However, the N11 Subscriber shall pay the full Central Office Charge whether or not it requests N11 in all Company local exchanges served by the host central office.

C. Where applicable, a N11 Subscriber shall pay a nonrecurring Exclusion Charge:

1. When a N11 Subscriber does not make contemporaneous applications to establish N11 in every Company local exchange served by a host central office, the N11 Subscriber shall pay an Exclusion Charge for each Company local exchange served by the host central office where N11 Service is not established.
2. When a Company local exchange is once excluded, but the N11 Subscriber subsequently applies to establish N11 Service in the Company local exchange, then an Exclusion Charge shall again apply.

D. N11 Subscribers will pay the normal tariffed charges for the local exchange access arrangements (e.g., PBX trunks, Centrex Type Services lines, etc.) used for transporting and terminating messages at the N11 Subscriber's designated premises.

E. N11 Subscribers shall pay a nonrecurring Number Change Charge when they apply to change the telephone number to which the N11 abbreviated dialing code is translated. Company will apply the Number Change Charge on a per telephone number, per host central office basis.

F. Applicable service order charges as specified in the Company's Tariff may apply, in addition to the following rates.

5. Charges applicable to N11 Subscribers*

A. Establishment of N11 Service

Nonrecurring Charge

(1)	Central Office Charge	\$548.00
(2)	Exclusion Charge	\$157.00
(3)	Number Change Charge	\$131.00

NUMBER TRANSFER SERVICE

Regulations

- A. Number Transfer Service allows a service provider to transfer an end user's Assigned Telephone Number ("ATN") to such service provider's facilities. The service provider must obtain the affirmative written consent of the end user to authorize the transfer of any ATN prior to submitting a request for Number Transfer Service. A Letter of Authorization (LOA) may be used for this purpose.
- B. The service provider will follow the ordering procedures established at the Ordering and Billing Forum ("OBF") for transfer of ATNs and the intervals applicable to wireline-wireline porting more specifically described in the North American Numbering Council's (NANC) Local Number Portability Administration Selection Working Group, dated April 25, 1997, Appendix E, Section 7.1, Figure 1.
- C. The service provider shall submit all orders for Number Transfer Service to the Company by either facsimile or by email using a Local Service Request (LSR) during regular business hours. The service provider shall complete the required fields of the LSR including necessary end user information and the requested Due Date. A copy of the LOA shall accompany the LSR. The regular business hours of the Company are 9:00 am to 4:00 pm, Central Time, Monday through Friday. LSRs received outside the Company's regular business hours shall be considered to be received on the next following business day.
- D. A separate LSR shall be submitted for each simple port. A simple port is limited to the primary number assigned to an individual end user account. All numbers on a LSR that are requested to be ported must reside within the same LRN and the service provider must have an LRN located within the same local calling scope as the number being ported. Complex ports will not be subject to NANC's porting intervals but will be scheduled on an individual case basis.
- E. The service provider shall establish a Point of Interconnection (POI) at a point within the Company's network for the exchange of traffic to ported numbers. The service provider shall be responsible for all costs on its side of the POI and for its costs to implement local number portability in its facilities. Where the service provider utilizes an indirect interconnection with Company's network, the service provider is responsible for all

PUBLIC UTILITIES**

facilities and charges assessed by third party(ies) for use of such third party's facilities between the service provider's network and a POI within the Company's network. The service provider will indemnify and forever hold the Company harmless for any charges assessed by a third party carrier as the transiting carrier.

- F. The service provider shall release a ported telephone number(s) when the service provider ceases providing service to such ported number(s). Release of telephone numbers will be based on the procedures set forth in the FRS and IIS of the Number Portability Administration Center. An aging interval includes any announcement treatment period, as well as blank telephone number intercept period. For disconnected numbers, the service provider will comply with the NPAC disconnect and snapback process as described in applicable publications of the North American Numbering Council.
- G. The service provider shall indemnify and hold the Company harmless from any liabilities, claims, or demands including costs, expenses and reasonable attorney's fees ("Claims") made by third parties resulting from the negligence and/or willful misconduct of the service provider, its employees and agents in the porting of telephone numbers.
- H. The Company shall not be liable to the service provider in connection with the provision or use of services offered under this tariff for indirect, incidental, consequential, special damages, including (without limitation) damages for lost profits, regardless of the form of action, whether in contract, indemnity, warranty, strict liability, or tort.
- I. The service provider will be assessed the non-recurring charges described below for processing each port request. Each submission of a port request will be considered a port request for purposes of assessing non-recurring charges.

Rates

- A. The following rates apply for each request for Number Transfer Service received by the Company.

	Non-recurring
	<u>Charge</u>
Number Transfer Service, each request	\$43.36
